RECENT EXPERIENCE

Full-Stack Software Development Associate
Catalyte - https://www.catalyte.io/

01/2022 - 07/2022   *Remote*
Rigorous software development program teaching development fundamentals with various languages and technology with heavy emphasis on project-based learning and collaboration.

Projects:

- **E-Commerce Application** - Contributed to a team of 9 to build a sporting goods e-commerce application using **Agile Scrum** methodology, **ReactJS**, **C#**, and **unit testing**.
- **React Hotel Reservation Front-End** - Followed UX/UI best practices to build an intuitive **ReactJS** front-end application for managing hotel reservations using a **Heroku** deployed API.
- **Movie Rental API** using **C#** and a **RESTful API** built on **.NET 5.0** to organize a custom factory-generated movie database and rental tracking system.
- **Capstone Project:** Full-Stack provider-facing HEALTH EMR Portal - Built **ReactJS** front-end and **C#** back-end for **3-Tier architecture** application designed to help health clinic employees track and document patient encounters and appointment information.

Business Owner
Self-Employed

05/2013 - Present
Sole proprietor for multiple small businesses focusing on e-commerce functions, logistics and social media marketing on various platforms.
